

PRINCE PAL

Lucknow, Uttar Pradesh

+91-9120828913 | princepal9120@gmail.com | LinkedIn | GitHub | Portfolio

SKILLS

Programming Languages: Go, Python, TypeScript, JavaScript, SQL, C++,
Backend: Gin, Node.js, Express.js, FastAPI, GraphQL, gRPC, RESTful APIs, Microservices
Databases: MongoDB, PostgreSQL, Elasticsearch, Pinacone, Sqlite, Vector Databases, Redis
Cloud & DevOps: AWS, Docker, Kubernetes, GCP, CI/CD, Vercel
Tools & Utilities: Git, Swagger UI, Postman, Poetry, VS Code, NoteBook

EXPERIENCE

Software Engineer

Jul 2025 – Present

BIK.ai (YC 20)

Remote

- Developed end-to-end **AI agent workflow**, integrating frontend, backend, and AI pipeline for seamless interaction
- Built production-ready **AI shopping assistant** with **LangChain** and **Python**, boosting user engagement by 35%
- Deployed **scalable APIs** using **FastAPI**, containerized with **Docker**, orchestrated via **Kubernetes** on **GCP**, ensuring 99% uptime
- Automated **GenAI workflows** with prompt engineering, reducing manual intervention by 60% and accelerating cycles

Mobile Software Developer Intern

April 2025 – June 2025

Dodoozy

Remote

- Built 15+ **React Native** components with **TypeScript** for orders, bookings, and billing.
- Integrated **Context API** and **Supabase** backend, reducing prop drilling by 35%.
- Enhanced UI with Bluetooth printer support, achieving 40% faster, smoother rendering.

Full Stack Developer Intern

October 2024 – December 2024

Blackbytt

Remote

- Developed 5+ **MERN stack** applications handling frontend, backend, UI/UX, database schema for 5,500+ users.
- Optimized **API performance** by 40%, reducing response time to 200ms through efficient schema and endpoint design.

PROJECTS

E-Commerce Microservices Platform with gRPC & GraphQL | Github

Oct 2025 – current

Go, gRPC, GraphQL, PostgreSQL, Elasticsearch, Docker

- Designed a distributed **microservices architecture** with Account, Catalog, and Order services.
- Implemented **gRPC** for fast, type-safe inter-service communication and scalability.
- Built a unified **GraphQL API Gateway** for querying multiple data sources efficiently.
- Used **PostgreSQL** & **Elasticsearch** for transactional and search operations with low latency.

AniVerse– Anime with AI Recommendations | Live | Github

Sept 2025 – Oct 2025

Go (gin-gonic), React, MongoDB, LangChainGo, OpenAI

- Built a full-stack **anime streaming simulation** with Go backend and React frontend.
- Developed high-performance REST APIs using **gin-gonic** with real-time data fetching.
- Integrated **AI-driven movie recommendations** using **LangChainGo** and **OpenAI API**.

Learnify – Learning Management System | Live | GitHub

May 2024 – Jul 2024

React.js, Node.js, Express.js, MongoDB, Cloudinary, Stripe API

- Developed a scalable **fullstack LMS platform** enabling course creation, enrollment, and progress tracking for 500+ users with secure JWT-based authentication and role management.
- Integrated **Stripe payments**, **Cloudinary uploads**, and RESTful APIs for seamless course purchase, media management, and real-time updates via webhooks.
- Optimized frontend using **Redux Toolkit Query** and backend architecture, achieving a **25% increase in user demand**.

EDUCATION

Madan Mohan Malaviya University Of Technology

2025

Bachelor of Technology in Computer Science Engineering | SGPA: 8.58/10.0

Gorakhpur, India

ACHIEVEMENTS

- Competitive Programming:** Knight (1850+ rating) on LeetCode, 3-star on CodeChef, Pupil on Codeforces
- Problem Solving:** Solved 900+ **data structures and algorithms** problems with 75% success rate across multiple platforms
- Technical Excellence:** Ranked Top 1.3K/30K+ (top 4.3%) in national coding contests, demonstrating strong algorithmic expertise
